

ABBEYCROFT LEISURE

COOKIES POLICY

Information about our use of cookies

Our website uses cookies to distinguish you from other users of our website. This helps us to provide you with a good experience when you browse our website and also allows us to improve our site.

A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer if you agree. Cookies contain information that is transferred to your computer's hard drive.

We use the following cookies:

- **Strictly necessary cookies.** These are cookies that are required for the operation of our website. They include, for example, cookies that enable you to log into secure areas of our website, use a shopping cart or make use of e-billing services.
- **Analytical/performance cookies.** They allow us to recognise and count the number of visitors and to see how visitors move around our website when they are using it. This helps us to improve the way our website works, for example, by ensuring that users are finding what they are looking for easily.
- **Functionality cookies.** These are used to recognise you when you return to our website. This enables us to personalise our content for you, greet you by name and remember your preferences (for example, your choice of language or region).
- **Targeting cookies.** These cookies record your visit to our website, the pages you have visited and the links you have followed. We will use this information to make our website and the advertising displayed on it more relevant to your interests. We may also share this information with third parties for this purpose.

How do we use cookies?

Adjust this part of the page according to your needs. Explain which cookies you use in plain, jargon-free language. In particular:

- *their purpose and the reason why they are being used, (e.g. to remember users' actions, to identify the user, for online behavioural advertising)*
- *if they are essential for the website or a given functionality to work or if they aim to enhance the performance of the website*
- *the types of cookies used (e.g. session or permanent, first or third-party)*
- *who controls/accesses the cookie-related information (website or third party)*
- *that the cookie will not be used for any purpose other than the one stated*
- *how consent can be withdrawn.*

Example:

A number of our pages use cookies to remember:

- your display preferences, such as contrast colour settings or font size
- if you have already replied to a survey pop-up that asks you if the content was helpful or not (so you won't be asked again)
- if you have agreed (or not) to our use of cookies on this site

Also, some videos embedded in our pages use a cookie to anonymously gather statistics on how you got there and what videos you visited.

Enabling these cookies is not strictly necessary for the website to work but it will provide you with a better browsing experience. You can delete or block these cookies, but if you do that some features of this site may not work as intended.

The cookie-related information is not used to identify you personally and the pattern data is fully under our control. These cookies are not used for any purpose other than those described here.

You can find more information about cookies at: www.aboutcookies.org. You can find more information about Google Analytics and how to reject or delete these cookies at: www.google.com/intl/en/privacypolicy.html.

Please note that third parties (including, for example, advertising networks and providers of external services like web traffic analysis services) may also use cookies, over which we have no control. These cookies are likely to be analytical/performance cookies or targeting cookies.

You can block cookies by activating the setting on your browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including essential cookies) the functionality of our website may be affected.
